OUR PROCESSING CHAT

ELECTRICAL PANEL

All kinds of industrial switchboards

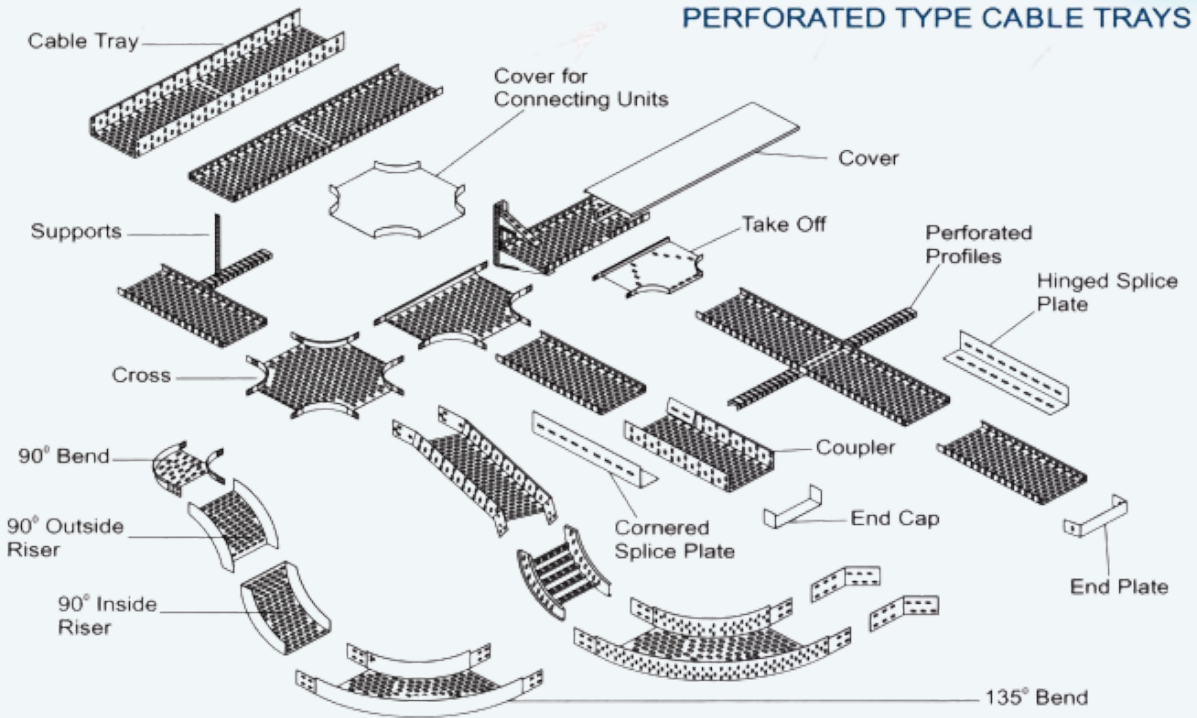

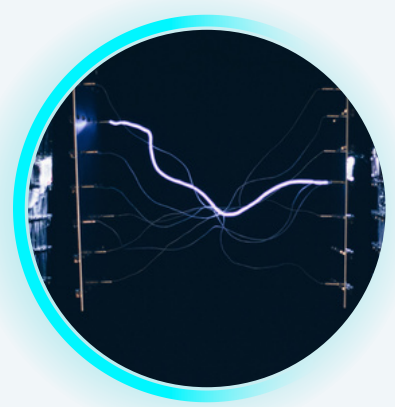

In the industry, different types of low pressure switchboards are used depending on the need. Each of these types may use different equipment (keys, fuses, etc.) depending on the voltage range and intended use and protection.

Types of low pressure switchboards:

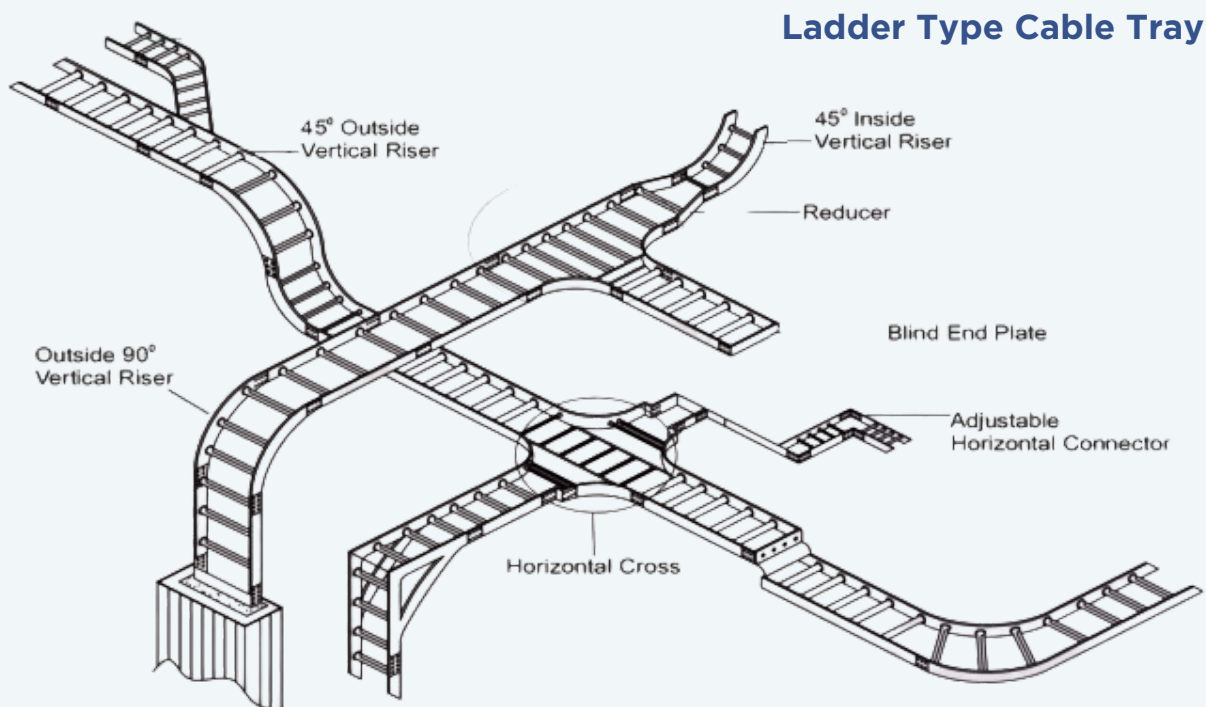

- 1 Distribution electrical panel (MDP electrical panel)
- 2 synchronize & change over electrical panel.
- 3 Capacitive bank electrical panel
- 4 Wall-mounted electrical panel
- 5 MCC electrical panel

CABLE TRAY & LADER

Cable trays are one of the ways to organize and support the cables and wires set at the time of wiring. The use of the trays is at the highest point and a better-known alternative to a conduit
